PROFESSIONAL SUMMARY

I'm a BCA graduate who found my passion in frontend development. I work with HTML5, CSS3, JavaScript, and React.js to build clean, responsive web applications that look good and feel smooth to use. I've built real projects from a fuel tracking app to a sports landing page and I'm always looking to improve my craft.

I thrive in collaborative environments, pick up new things fast, and genuinely care about the user experience behind every interface I build.

TECHNICAL SKILLS

Frontend Core: HTML5, CSS3, JavaScript (ES6+)

Frameworks & Libraries: React.js, Next.js, Tailwind CSS

Architecture & Tools: Component-driven architecture, REST API integration, Git version control

AI & GenAI Tools: GitHub Copilot, Vector Database, LLM API awareness

UX & Accessibility: Responsive Design, WCAG Accessibility Standards awareness, Cross-browser compatibility

PROJECTS

FuelGaze — Smart Fuel Tracking for Daily Drivers

[Live Preview](#) | [GitHub Repository](#)

A responsive web application that helps daily drivers track fuel consumption, monitor mileage, and get smart refuel alerts. Users can log every fill-up, view fuel efficiency trends, and know exactly when to refuel before running out.

Tech Stack: React.js, Typescript, JavaScript (ES6+), Tailwind CSS, HTML5, CSS3

Tools & Deployment: Git, GitHub, Vercel, VS Code, GitHub Copilot

UI Design — Granger Sports & Activity Landing Page

[Live Preview](#) | [GitHub Repository](#)

A modern, fully responsive sports and fitness landing page for a brand called Granger. Features a multi-section layout including hero, activity tracking, event listings, testimonials, and a call-to-action footer designed to showcase strong frontend UI skills and attention to design detail.

Tech Stack: HTML5, CSS3, JavaScript, Responsive Design

Tools & Deployment: Git, GitHub, VS Code

WORK EXPERIENCE

Event Coordinator & Volunteer | MMHAPU Cultural & Tech Fests | 2023 – 2025

- Coordinated tech fest activities, managing real-time problem-solving and stakeholder communication building skills aligned with product and design team collaboration.
- Handled guest flow and queries for hundreds of attendees, demonstrating attention to detail and user-centric service delivery.

Customer Service Associate | Wipro Limited, Noida | Jan 2022 – Jun 2023

- Managed inbound customer queries across voice and chat channels with focus on first-call resolution, developing strong analytical and communication skills applicable to UI/UX feedback cycles.
- Collaborated with team leads and cross-functional peers to meet service targets translating well to Agile/Scrum team environments.
- Maintained professionalism under pressure, demonstrating adaptability and problem-solving mindset aligned with enterprise delivery standards.

CERTIFICATIONS & ACHIEVEMENTS

Certificate of Participation — Job-Ready Hackathon

Sheryians Coding School | AI Powered Job-Ready Cohort | July 2025 — Frontend-focused competition demonstrating practical UI development skills.

EDUCATION

Bachelor of Computer Application (BCA) — MMHAPU, Patna | 2022 – 2025

Higher Secondary (Grade 12) — Bihar State Examination Board | 2022

Secondary (Grade 10) — CBSE | 2019

CORE SKILLS

Stakeholder Communication • Team Collaboration • Problem Solving • Analytical Thinking • Adaptability • Time Management • Conflict Resolution • Cross-cultural Awareness
